Mailer & Courier Bags

Mailer/courier bags serve as protective packaging during freight transport, offering a versatile alternative to cases/cartons and paper mailers/envelopes in various scenarios.

Constructed with multilayer substrates, these bags utilize environmentally friendly post-consumer recycled plastic and 100% recyclable thermoplastic hotmelt adhesives. This packaging solution is recognized for its minimal environmental footprint compared to commonly used alternative paperboard. Furthermore, all bags are designed to be 100% recyclable, ensuring sustainable disposal options for end-users.

Key Specifications

Material	LDPE, HDPE, PCR
Size	Custom sizes
Sealing method	Side seal
Printing	Environmentally safe ink
Thickness	Depends on application
Closing method	Adhesive glue with release liner
Recyclability	100% recyclable
Adhesive glue	PE based hot melt (100% recyclable)
Handle	Optional
Resealability	Optional
