Security Bags

Security bags play a crucial role in safeguarding valuable items, currency, and documents during storage and handling. Designed with multiple security levels, these bags serve as a reliable indicator of tampering, whether through heat, force, water, or cold exposure. Each bag is individually numbered and meticulously accounted for using an online ledger.

Furthermore, our security bags offer seamless integration with customers' internal numbering sequences and coding systems, ensuring effortless compatibility with existing processes.

Crafted from the toughest polymer combinations in the industry, our security bags are built to withstand rigorous conditions. Through extensive impact and drop testing, we ensure that our bags remain intact even under the most challenging handling circumstances.

Key Specifications

Material	High strength LDPE blend
Size	Custom sizes
Sealing method	Thick side seal (tamper evident)
Printing	Environmentally safe ink
Thickness	2.8 mils +
Closing method	High strength adhesive film with release liner.
Recyclability	100% recyclable
Adhesive glue	PE based hot melt (100% recyclable)
Barcode/ QR code	Optional
Individual serial number	Optional
security features	level 4, level 3, level 2, level 1

Security Bags

Levels	Void Message Can transfer 'Void' message when tape is removed	Thermochronic Ink Reveals signs of tampering if exposed to heat	Water Resistant Ink Resists dissolving ink with water/solvent	Cold Resistant Withstands -40 °C
